AMA COSTING - Important Theory Question for Nov.15 Exam

1. stage in implementation of target costing.
2. 3 control points in target costing.
3. business functions in VCA.
4. types of activity in VCA.
5. competitive advantages
6. strategic frame work of VCA.
7. cost drivers in VCA.
8. types of Cost Drivers in ABC.
9. types of cost in VCA
10. phases in PLC.
11. stages in PLC.
12. pre-requisites of Uniform Costing.
13. pre-requisites of Inter Firm Comparison
14. main characteristics of Service Sector Costing.
15. methods of costing in Service Sector Costing.
16. common pitfalls in Relevant Costing.
17. hierarchy in ABC.
18. key element of ABB
19. Roles of JIT to eliminate wastage of resources.
20. Roles of JIT In Time Reduction.
21. stages of Bench Marking.
22. types of Bench Marking.
23. code of conduct of Bench Marking.
24. key measure of TOC.
25. perspective of Balanced Score Card.
26. category of indirect cost for DPP.
27. data required for MRP.
28. pre-requisites for successful MRP.
29. core concept of TQM.
30. dimension of TQM.
31. types of Quality cost.
32. stages in TQM.
33. PRAISE =?
34. Deming 14 points.
35. PDSA cycle =?
36. essential requirements of TQM.
37. fundamental principles of TQM.
38. main objectives of TP.
39. method of TP
40. types of cost based TP.
41. proposals for removing TP conflicts.
42. difference market structure in Pricing Decision.
43. types of competitive pricing.
44. types of market entry pricing strategies.
45. types of price discrimination.

46. types of pricing for non – cost reasons.
47. types of BEP chart
48. methods of segregation _semi-variable cost _variable cost & fixed cost.
49. main non-cost Factors for shut down decision.
50. methods disposal of variances in standard costing.
51. methods of accounting procedures in standard costing.
52. In which circumstance material mix variance is zero?
53. fold assumptions in cost reduction are?
54. 7 Circumstances in which it may be justifiable fix the selling price below marginal cost
55. 12 Major areas of DM in which differential costing is used
56. 4 Limitations of ZBB
57. 2 ways of cost plus markup TP
58. disadvantages of treating divisions as profit centers
59. Need for ABC
60. areas where ABC can be used as a DM tool
61. Major Applications of Pareto Analysis
62. problems with Back flushing
63. BPR
64. Benefits of DPP
65. major constrains on TA
66. Short notes on CAM
67. Short notes on six sigma
68. Short notes on Synchronous manufacturing system
69. Describe Deming point
70. Explain MRP II
71. Kanban card and working cells are mutually exclusive – validate the statement.
72. Short notes on 'pull system'
73. State the benefits accruing from Enterprise Resource Planning (ERP).
74. Explain requirements explosion
